## Introduction

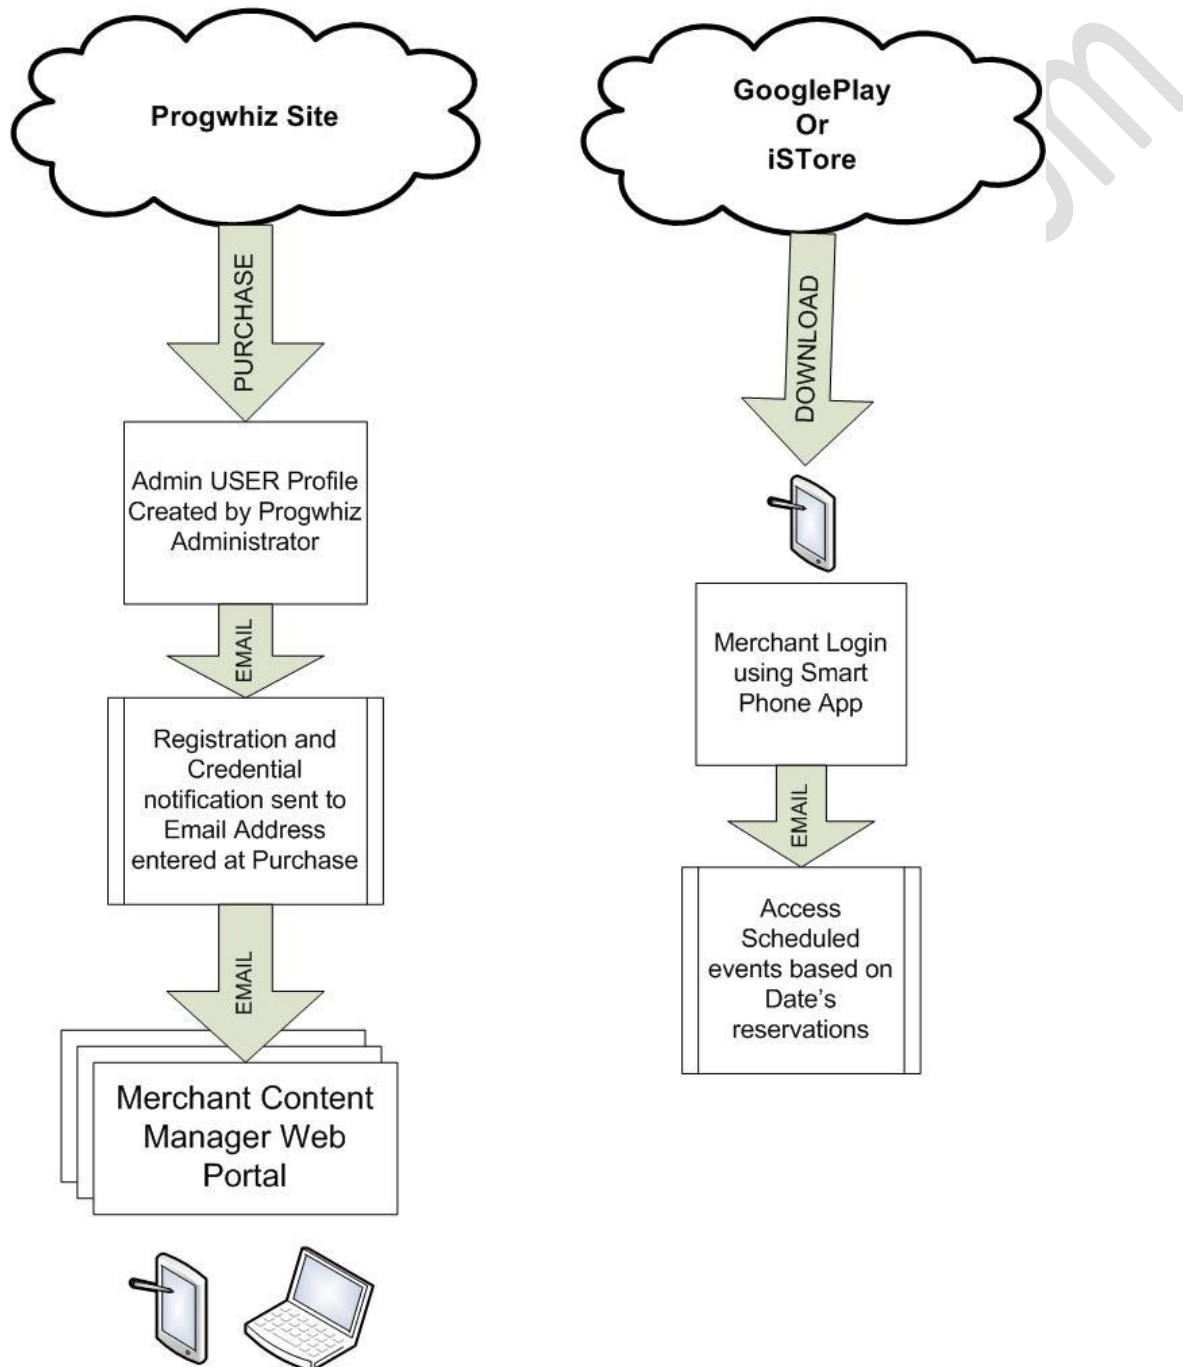

The Progwhiz Reservation System is a solution to allow Merchants to allow their customers to book or reserve Products and/or services using Android and Apple devices. The inventory of products and services can be dynamically updated by the respective Merchant and the customers can view the updates in real time.

www.progwhiz.com

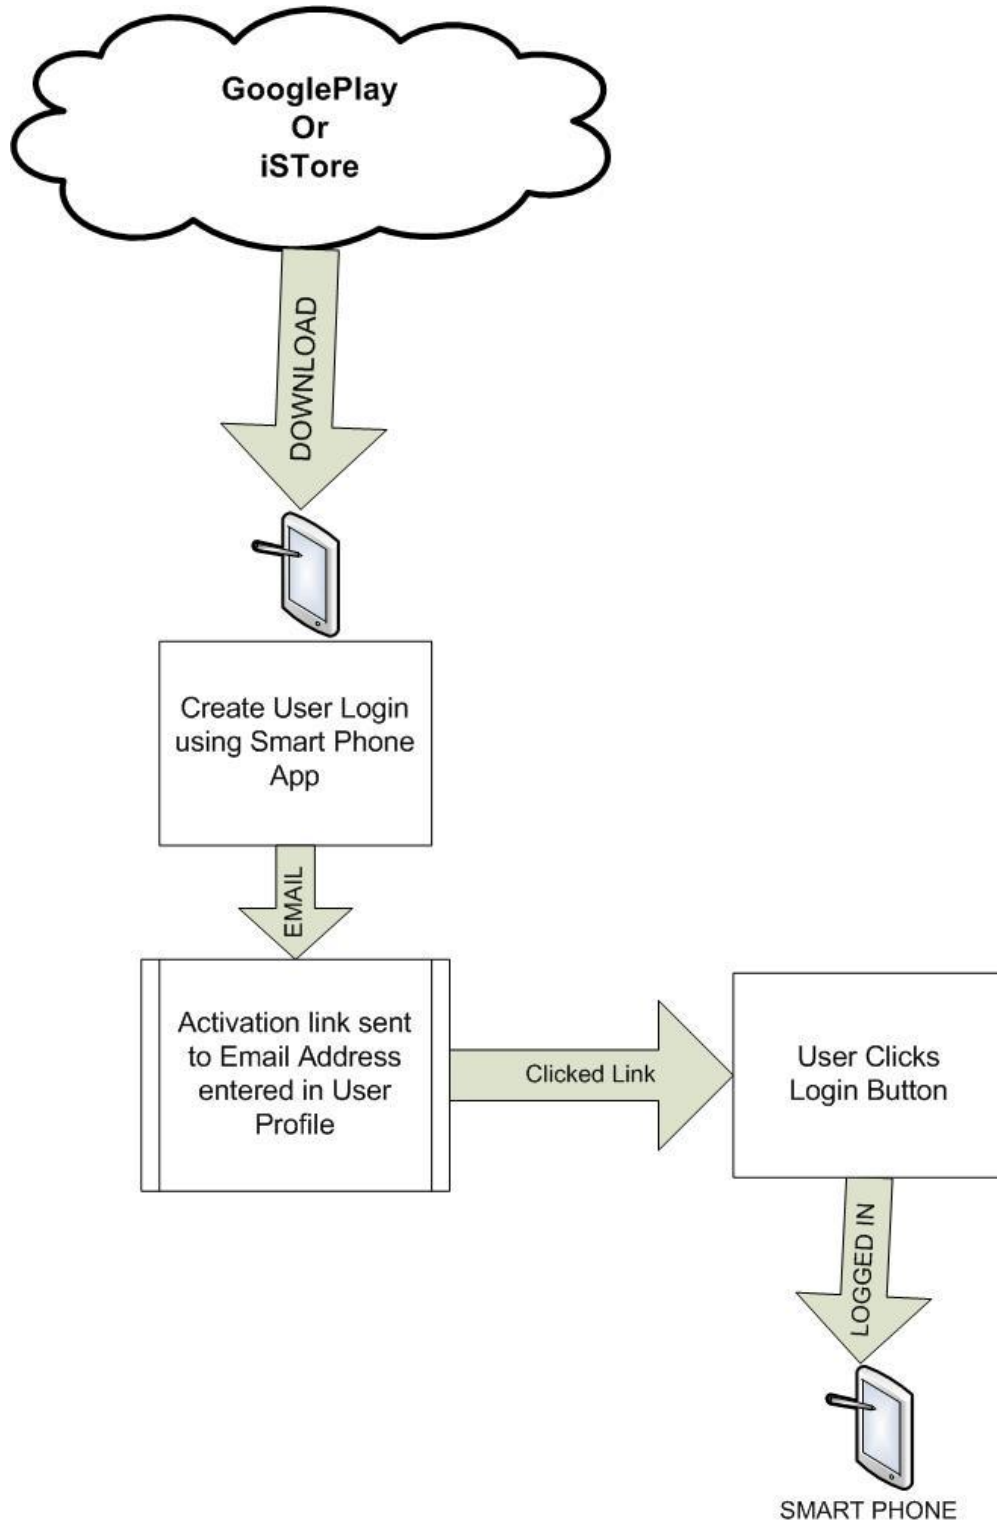

## Design

The Solution topology is illustrated below.

### Merchant Workflow

## Client Workflow

## Merchant Features

The Merchant has several tools as itemised below:

- **Web Portal**
  - **Modify Customer**
  - **Add Service Type**
  - **Add Service**
  - **Delete Service Type**
  - **Delete Service**
  - **Customer Reports**
  - **Booking Reports**
  
- **Client Devices Smart Phones (Android/Apple)**
  - **Reservations/Booking Scheduler Admin Panel**
